

An Overview

Maypole Marquee Ltd are a well established family business. Using one of our marquees will allow your function to be both versatile and, more importantly, unique.

We offer a professional service that provides helpful advice and an experienced perspective to ensure that the customer can build upon our ideas to create a truly memorable function.

Maypole Marquee Ltd are members of The Performance Textiles Association – the UK's only recognised Marquee Hire Accreditation Authority. This enables us to carry the MUTAmarq logo and, more importantly, ensures that we conform to high standards of quality, operation and safety.

What size marquee do I need?

We recommend that you allow between 18 sq ft and 20sq ft per person for an average sit-down wedding/function. This allows for enough space for extra areas such as stage, dance floor, entrance etc. Caterers need additional space, therefore we normally provide a small catering tent to the main marquee – the size of this is really dependent on the type of food your having, and the caterers personal requirements. We can produce a computer-aided-design plan to ensure that you have the correct size for your function.

When will my marquee be erected and dismantled?

Generally we will erect your marquee between 1 and 2 days prior to your function to allow time for internal decoration. We work on a 2 week running rota, and once this has been drawn up we will contact you to advise of erection and dismantling dates. If you intend to use your marquee for more than one function, please advise as at the earliest opportunity.

Who is responsible for the furniture set-up?

We leave all the equipment that you have hired from us inside the marquee for you, your wedding party or your caterers to set up to your exact requirements – once tables and chairs are physically erected they are far more difficult to move.

Will my domestic power supply be sufficient for our marquee function?

Generally yes, however in some instances we may need to ask our electrician to provide you with an adequate supply via a distribution board (at an additional cost to you).

When should I provide you with final numbers?

The sooner we are aware of your final numbers, the easier it is for us to source all of your required items. As from time to time we use sub-contractors, the earliest you can give us information the better.

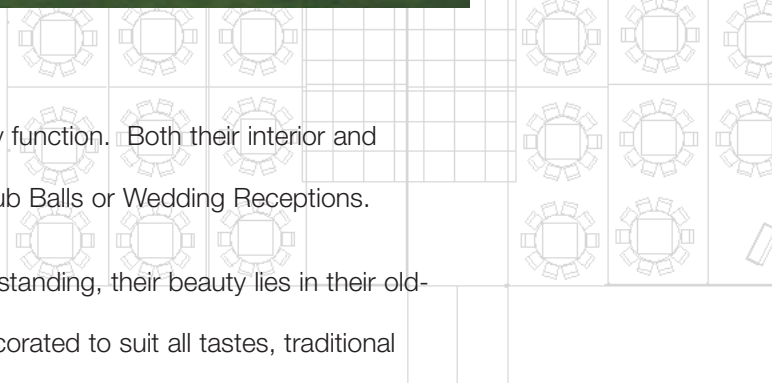

Traditional Marquees

Our traditional marquees provide a beautiful venue for any function. Both their interior and exterior make them a stunning choice for both Charity/Club Balls or Wedding Receptions.

Although traditional marquees cannot be placed on hard-standing, their beauty lies in their old-fashioned charm. With interior king poles that can be decorated to suit all tastes, traditional marquees can create both a unique and sophisticated ambience.

Computer aided design enables you to plan in detail the layout of your function, and can also show the exact capacity of any given traditional marquee.

Our standard traditional marquees have full pleat ivory linings, these can be enhanced by adding coloured swags (at the eave of the roof), coloured overlays over the roof linings or indeed our popular star cloth – giving that dark twinkling glow.

Traditional Marquees

Our aluminium structures offer versatility, they can be erected on both grass and hard standing and can be equally effective for both high profile corporate functions, trade shows, parties and indeed wedding receptions.

Aluminium structures benefit from no external or internal poles – giving more freedom of space. All of our structures include window sections which can be positioned to suit the clients needs and sides can be opened to provide ventilation.

Ancillary Equipment

Our stock of ancillary equipment can transform your function to a truly unique experience.

Coloured linen is an effective way to enhance your tables.

Co-ordinating swagging and carpet combined with a starcloth blackout gable end create an immediate stunning visual effect. These can be supplied in a range of colours to compliment your theme.

Chair covers instantly transform the look of our classic gilt banqueting chairs. These too can be supplied in a range of colours to compliment your theme.
